According to Dr. Steele, "Arizona's Verde River is one of the last healthy, flowing river systems remaining in the state, a place of beauty and respite, an economic engine for Arizona, and a national treasure recognized for its wild and scenic values. And yet, in the face of a drying climate and increasing groundwater pumping, the Verde is at risk of drying up. What can we do to save this hard-working river?" Keep Sedona Beautiful's Preserving the Wonder™ Speaker Series focuses on presenting a diversity of programs relevant to the unique environment of our region. *Join us on ZOOM.*
